Designer balancing user needs, business goals, and team realities to deliver high-craft products for industry-defining brands.

Indie Product/Designer/Engineer

Self

July 2025 - Present

AIQuota: Designed, built and shipped a little native macOS menu bar utility that lets you track Codex and Claude Code usage at a glance, without opening a browser.

SendMoi: Also, created an iOS and macOS app using AI coding tools to accelerate iteration from concept through release.

Principal Designer

Resy (American Express Global Dining Network)

Feb. 2022 - June 2025

Leading end-to-end Design of Product features across both Consumer and Restaurant platforms, for Web, iOS and Android:

- **Resy App Discovery & Navigation Re-architecture:** Launched a new in-app [Discovery View](#) anchored by Resy Editorial and algorithmic Collections, supporting native Booking and Add-to-Lists, driving deeper user engagement and retention. Additionally, re-mapped the app's Architecture to adopt more a more modern, sheet-based, gestural paradigm.
- **ResyOS Web Booking:** Conducted User Research with strategic restaurant customers, concepted and prototyped iterations, and shipped a [more streamlined and intuitive UX/UI](#) for restaurant customers.
- **Defining and refining the role of Principal Designer (IC Director-level) within the org:** By providing vision and leadership for our Consumer products, as well as leading a Product Design process that both innovates and brings the team along.

Head of Design / Design Lead

Resy

Feb. 2017 - Feb. 2022

Led all aspects of Design post-Series A, including Product, Brand, Experiential and Editorial:

- **Product Vision:** Redesigned resy.com Consumer Website, bringing together Content, Discovery and Booking in one place.
- **Team Building:** Recruited, hired and managed a team of five Designers focused on Resy's core B2B SaaS (iOS & Web) and B2C (iOS/Android Apps & Web) products.
- **Evolved the brand** and how it's expressed in our products, events and marketing, and setting a new visual direction.

Head of Design

Wayward Wild

Dec. 2016 - Feb. 2017 (*Investment fell through*)

- Led design for this pre-investment startup, partnering with small media brands to grow audiences through strategic consulting, branding, technology and design.

(Continued)

Product Design Manager

BuzzFeed

April 2015-Sept. 2016

Managed a team of product designers focused on Ad Tech (distribution, reporting, workflow tools) and Data Learning (dashboards, metrics) for editorial and business—providing guidance, setting goals and encouraging accountability:

- Collaborated closely with peers in Product and Engineering to **establish high-level objectives** for the teams and how to **measure their success**, balancing speed, quality and consistency of design.
- Led a re-write of [Product Designer Roles](#) document, resulting in a clear, actionable and scalable framework for bar-setting. Also, contributed to [Design Leadership Principles](#), eventually used throughout the larger Tech organization.
- Previously, managed a team of product designers focused on **Editorial Tools & Site Experience**, including the **BuzzFeed CMS**, experimental formats and website.

Deputy Editor, Digital News Design

The New York Times

Jan. 2014- April 2015

Co-led a team of 9 digital designers in the newsroom to conceive, design and code visually-rich story presentations, interactive features and special packages for planned news events like the Olympics, Elections and the World Cup, across all platforms:

- **Directed the digital expression of enterprise stories** from the planning stages to publish, collaborating closely with designers and technologists, reporters and their editors, as well as photo, video and graphic journalists.
- **Recruited designers**, technologists and producers, both for my team and for product teams outside the newsroom.
- Introduced team workflows with Trello, Slack and Google Docs, to capture incoming requests, **assign and manage work**, and ensure transparency and accountability across the team.

Design Lead, Digital News Design

The New York Times

Mar. 2012- Jan. 2014

Led digital design in the newsroom, including the **2012 Election-season digital presentation efforts**, with multimedia features and packaging; designed and directed the presentation of the home page and live coverage on Election Night.

Design Lead, Digital News Design

The New York Times

Nov. 2007- Mar. 2012

Designed NYT Real Estate listings iOS app, and “The Scoop,” an Arts & Leisure-focused iOS app; rebranded and designed “The Opinion Pages” section, featuring the first NYT use of branded typography (via Typekit).

Manager, Web & Multimedia Services

Lionbridge, Framingham, Mass.

Nov. 2006- July 2007

Key clients: Microsoft, General Electric, Autodesk, PTC

News & Documentary (2012)

Loeb Award Finalist
(2009)

Education

B.A. in History & Political Science,
Cum Laude

Boston University,
Boston, Mass.

Co-President,
BU College Democrats

John Niedermeyer
product design
& direction

Hello,

My name is John Niedermeyer, and I've worked at Resy for nearly 5 years, designing products and building and supporting teams. I want to be Resy's first Principal Product Designer.

Attached is my resume, which details my work over the past 20 years, and here is my portfolio with selected work: <http://nieder.me>

I've been a Resy user since launch in 2014 (user #516!), and working at Resy has been one of the most challenging and rewarding experiences of my life. I want to stay at Resy and American Express to continue to grow, learn and help my colleagues do impactful work. I want to give our restaurant partners the tools they need to thrive, and design experiences that get our consumers as excited about dining.

Thanks for the opportunity,
John
